

ABOUT OUR TEAM

The Dental Wellness Center is a standard dentistry practice using current, scientifically sound methods for treating common and hidden dental problems.

We promote holistic health for every member of the family by looking at and listening to each patient individually to understand how their oral conditions are affecting their whole body health.

We accept most insurance plans and can offer financing in most cases, but we only recommend treatment plans that support our patients' journeys to healthier, happier lives.

"The staff is wonderful and very friendly. I would definitely recommend my dentist!!"

- Anjelica Aguilar
Cumberland, MD

WHY CHOOSE US?

Dr. Marc DiNola and the entire Dental Wellness Center staff take a mind, body, and spirit approach to biological dentistry.

MARC DINOLA, DDS is a graduate of the University of Maryland, Baltimore College of Dental Surgery. He is licensed by the Dental Board of Maryland and is a member of the American Dental Association, International Association of Mercury Free Dentists, International Academy of Oral Medicine & Toxicology, and the Holistic Dental Association.

Dr. DiNola is dedicated to lifelong learning within the dental profession, but also enjoys other health related areas. He stays informed by reading current scientific literature that may have implications for dentistry and general wellness, especially with respect to nutrition, environmental hazards, medical developments and lifestyle improvements.

Dental Wellness Center:

integrative care for the
whole body

ARE YOU SUFFERING FROM
CHRONIC NECK AND
SHOULDER PAIN, EARACHES
OR HEADACHES, OR HAVING
TROUBLE SLEEPING OR
BREATHING?

These and other health issues are often
connected directly to the health of your mouth.

The mouth is the window into the body and is a
natural gateway for addressing health issues
stemming from diet, medications, lifestyle, and
many other factors.

We promote holistic health for people of all ages
by looking at and listening to each, individual
patient to understand how their oral conditions
are affecting their whole body health.
